key features & benefits

stm
protecting your digital cargo

sports2 15"

sporty, versatile, roomy

You need to carry your laptop, documents, gym gear and other bits and pieces. Do you carry 2 bags? No, you get an STM **sports2** backpack. It features the STM's unique padded cell, which keeps your laptop suspended off the pack's floor, soaking up the impact and protecting your laptop from much of the everyday shocks and bumps it has to endure.

Like all STM bags, it doesn't look like there's a laptop inside the **sports2** backpack, keeping your precious notebook safe from preying eyes and wandering hands.

Sports2 fits most laptops with screens up to 15".
